

PE

New Year's

Resolutions

2024

1

INSTANT ACTIVITY

Beginning lessons with students running laps or doing activities that do not connect with the purpose of the lesson.

Each lesson with an activity that connects with what's being learned in the lesson; make it relevant.

2

LEARNING INTENTIONS

Withholding learning intentions from students. Stop having activities that are simply, "busy, happy, & good".

Making learning intentions explicit - inform students &/or have students inquire about the "why?"

3

ASSESSMENT

Collecting data on attendance, effort, participation, & dressing appropriately, to inform grading.

Providing students with opportunities to self & peer assess. Monitor & gather evidence of learning that can inform future teaching & learning.
